Shaun became a foundation partner of McGrathNicol on 1 July 2004. His experience includes complex business restructuring and turnaround assignments, capital reorganisations and formal insolvency administrations, including reorganisations under Chapter 11 of the US Bankruptcy Code.

Experience

Industry Sector Experience

Shaun's experience spans mining and engineering, property and construction, retail, tourism and hotels, information and communications and financial services.

Examples include:

- receivership of Evans and Tate, a listed Australian winery company with operations in Western Australia and South East Australia;
- numerous assignments involving business performance improvement including; strategic planning, working capital management and capital reorganisation;
- voluntary administration of Henry Walker Eltin Group, a listed Australian company offering a range of integrated services in the mining, civil engineering, and electrical, mechanical and process engineering sectors;
- receivership of Environmental Solutions International Limited, a listed Australian engineering firm specialising in infrastructure and construction projects;
- adviser to key stakeholders in various mining and mining services companies operating nationally and internationally in iron ore, coal, nickel (including laterite), gold and mineral sands;
- chapter 11 restructuring of Sunterra Corporation, a major international timeshare resort development company (debt > US\$750,000);
- various large complex Australian and US restructuring assignments; and
- receiver of various property related businesses and assets.
